Last year pensioners celebrated 10 years of the bus pass.

But cuts in services have left many communities without good public transport links.

Poor services affect old and young alike.

Come along to this conference to discuss how we can work together to defend and improve our bus services.

Speakers

Jan Shortt - National Secretary NPC

Natalie Bennett - Green Party

Jeff Turner - Institute for Transport Studies, University of Leeds

Also speakers from: RMT, York Bus Forum, South Yorkshire Freedom Riders, Stoke & West Midlands bus campaigners

The aim of the conference is to produce a plan that we can use to campaign for better public transport for all.

To do that there will be a number of workshops which will include:

Campaigning and influencing

Climate change, polluted cities, congestion - how public transport can help

Towards a regional manifesto for better public transport
